INTRUSIVE'S GALLANT WIN.

CARRIES 126 POUNDS AND BEATS HIMSELF BY A HEAD.

Large Crowd at Bennings to See Hunters' Steeplechase, Won by Headland - Favorites Beaten in Close Finishes - Sheriff Attaches Bookmaker Selby's Money.

WASHINGTON, April 5 .- Although the Washington Jockey Club's card this afternoon was very ordinary one, the crowd which made the Hunters' Steeplechase, which attracted the members of the smart set. The sport was better than expected, the finishes being close, and the crowd left the track very much pleased, even if many favorites were beaten.

programme, and it went to Headland, representing the Rose Tree Hunt, Pa. He was the tip of the race and well backed at 11 to 20. After leading for a mile Tanit passed him and showed the way to the stretch. Headland again went to the front, and won by two lengths from Silent Friend.

Intrusive's victory in the closing event was the star performance of the day, as the old horse picked up 128 pounds and ran in almost record time. He opened at 2 to 1, but receded to 5 to 1, while Himself was backed from 2 to 1 to 7 to 5. Intrusive caught Himself in the stretch, and the pair fought it out all the way home. Intrusive outgaming Himself and winning by a head. In the first race Early Eve, a 3 to 6 favorite, led until the last few yards, where Meistersinger, who had not even been seen by Burns, got up on the rail and won by a head. Burns lost the race by watching Apple Jack. rail and won by a head. Burns lost the race

rail and won by a head. Burns lost the race by watching Apple Jack.

Red Knight was rated a good thing for the second race, for maiden two-year-olds, but lost by being cut off at the start, Mexicanna, who had made all the running, winning by a nose. The fourth event was a steeplechase, with Decameron an odds-on favorite, but he ran third: George W. Jenkins, the second choice, winning by ten lengths. For the fifth event Lamp o' Lee was the favorite and Burns won the race by getting him away in front to a bad start. Handicapper would have won with an even break.

A deputy sheriff seized some money from Homer Selby, brother of Kid McCov, after the fourth race. It seemed that a judgment had been secured against a man named Henchell, who is making book for Selby and the Sheriff, thinking it was Henchell backing the book, grabbed the money from Belby's hands as he was paying off. Summarles:

Handicap; for three-year olds and upward; by beeription of \$5 each, with \$400 added; five and a subscription of \$5 cach, with \$400 added; nve and a half furiongs.

SCHOONER TO MEET METEOR New Yacht From Fife's Design to Race Against the Emperor's Boat.

The schooner that British yachtsmen pin their faith on to beat the Meteor is now almost finished for Cecil Quentin. This yacht was designed by William Fife, Jr , and is declared to be one of the handsomest schooners over seen. The Yachtsman in its fitting-out number says: "Her counter is long and extra graceful even for a Fairlie designed boat). The bow is of the modern order of clipped bows, and with no part of his model has Mr Fife been more successful than with this, the trip to Bennings was the biggest of the meeting, due principally to the running of the Hunters' Steeplechase, which attracted and very pleasing to the eye by means of a bit of cleverly managed sheering. Her masts are fairly close together, but not unduly so, as used to be the fashion. On the load line The Hunters' Steeplechase was third on the programme, and it went to Headland, repre- and her draught 14 feet. So full and sweetly

any structural alterations on her. She will be manned by a crew of sixteen or seventeen, all told.

She is to be a beautifully finished boat, and the principal apartments into which her ample interior space will be divided will be a main saloon, and half a dozen principal staterooms. The main saloon will be 15 feet in length, while it will extend the whole width of the vessel. The staterooms will be 12 feet long by 9 feet broad, and 7 feet 4 inches high between decks, and they will be supplemented by very high little toilet rooms. Two large and very completely furnished bathrooms have been included in the plan, while the forecastle, pantry and minor accommodation have been thought out and arranged for with equal skill.

The cabin deck is reached by a broad and and easy stair, which has its start in a deckhouse 11 feet long by 7 feet wide. This deckhouse 11 feet long by 7 feet wide. This deckhouse is to some middle with a comfortable range of seats, and, while it will be as useful a place in its own way as is in all the vessel, it has been so designed as to interfere only to the minimum extent with the clean, clear sweep of the spacious deck. While the new schooner is to be a comfortable cruiser rather than a "racing machine," it is the intention, according to present arrangements, to give her first racing trial in the German Emperor's Dover-Heligoland match. It is to be hoped, too, that his Imperial Majesty's new American craft will be there to meet her. In all probability the new Meteor with her wider wings, would be rather smart for the Fairlie-Southampton beauty in calm weather, but it is to be hoped that in a fresh breeze the British boat might be able to make a close match of it.

AUTOMOBILISTS FOLLOW PACE.

AUTOMOBILISTS FOLLOW PACE. First Run of the Season Is a Procession

Behind President Shattuck. The Automobile Club of America held its first run of the season yesterday, the objective point being Ardsley-on-the-Hudson. There were sixteen vehicles in line when the start was made from Fifth-eighth street the start was made from Fifth-eighth street and Fifth avenue at 10 o'clock in the morning, and they trailed along in single file by way of New Rochelle and White Plains to Ardsley, where dinner was served. The run was of peculiar interest, because it was the first in which the new rule of following a pacemaker was enforced. It was feared that the rule might ruin the attendance of the runs because the motorists would object to taking the dust of the pacemaker, but no great dissatisfaction was expressed last night after the motorists returned, although they had a very punctilious pacemaker, in the person of the President himself, A R Shattuck Mr Shattuck is very particular about having the members obey the speed ordinances, and with him in the lead there was no chance for scorching. The rule stipulates that any member who passes the pacemaker shall be suspended, and for a second offence shall be suspended. No one courted the punishment resterday.

NEW YORKS BEAT BROWN BY

SCORE OF 2 TO O. Weak Hitting Contest in Which the Pro fessionals Do No Better With the Stick Than the College Players-Spry Field-

ers on Visiting Team-Other Games The New Yorks tried their prowess against another college team at the Polo Grounds yesterday and again managed to win the game by a small margin only. The score was 2 to 0, and the New Yorks failed to show any material batting ability. Hatch, a young man who never before pitched for a college team, and still lame from a football accident, held them down to five hits, two of which were of the scratch order. It was a

Wins From Stockton in the Final Court

Tennis Match.

Condition was a factor in the final match

for the court tennis championship of America yesterday at the Racquet and Tennis Club, when Joshua Crane, Jr., of the Boston A. A. and the Racquet and Tennis Club, won the title for the second year in succession by defeating L. M. Stockton of the Boston A. A., a former champion. Every inch of the lim-ited room for onlookers was occupied half an hour before the match, and there was much enthusiasm over the many clever strokes and lively rallies Crane won by 3 sets to 1. The winner was the favorite, for his work during the year in the New York, Boston and London courts had demonstrated con-clusively that Crane is at this time the leading tennis player of this country, and, besides, the force and finesse of his style, Crane showed

Crane 6 8 6 6-21
Stockton 2 6 2 3-13
The referee was M S Paton, and John Hanmond, who has served throughout with satisfaction in that capacity, was the marker.

NEWS OF THE WHEELMEN. Tom Cooper and Other Stars Go In for Automobiles - L. A. W. Committees.

Automobiles—L. A. W. Committees.

A novelty that the man who discovered it calls "the limit in fake tires" came from a "bargain" wheel that was left with a dealer for repairs. When the tires were removed they were found to be stiff tubes of scrap pasteboard glued together and printed on the outside to presently rubber. Inner air tubes of rubber were used in conjunction with the pasteboard. The tires were nearly puncture proof, but had about as much "life" in them as a wooden shoe. A section of one of these tires, which were ridden for miles without detection of the fraud, has been put in a glass case by the dealer who discovered them.

Albert Schock, the former six-day cham-

FOR APPOINTMENT, INSPECTION OR TRIAL Albert Schock, the former six-day champion, who is now keeping a cycle store in Brooklyn, was encountered yesterday and found to be in a most happy and sanguine frame of mind-concerning the cycling outlook. He said that he is so busy that he hardly has time to eat or sleet. "All they needed was one good spring-like Sunday, and the riders came out in droves," said the veteran. "Sunday I took twenty-seven wheels from the sheaves in my place that had been lying there dust covered for mentles. It's going to be a hig riding season, mark my words. Everything indicates it." 133-139 West 38th Street.
